OUR INSURANCE AND LIABILITY PRACTICE

Insurance is all about risk management and monitoring. At Liedekerke, we understand our clients' viewpoints. **For over 40 years we have been providing risk-balanced solutions to our clients**, helping them to achieve their business goals.

Liedekerke has developed its insurance practice over the years, keeping in mind that liability and insurance issues are closely related and that dispute resolution is not limited to litigation before the courts.

Our Insurance Team is specialised in all areas of the insurance sector, such as life and non-life, maritime and transport insurance. We regularly advise on intermediation and regulatory compliance matters.

Our specialists offer a complete range of services including advising on claims, negotiating cooperation agreements, drafting or updating insurance policies, advising on regulatory matters, and dispute resolution.

OUR CLIENTS

Our team advises and represents a wide array of Belgian and foreign insurance and reinsurance companies, brokers and agents, retail and commercial banks and other financial intermediaries, as well as trade associations and insured persons.

Our clients include domestic entities as well as foreign insurers and loss adjusters who operate in Belgium under freedom of services. We are also regularly instructed by UK and US law firms to advise their clients in relation to Belgian insurance law matters.

We are proud to be able to count amongst our longstanding clients some of the best known insurers with a strong local presence. Our Insurance and Liability practice has earned a particularly strong reputation for representing corporate clients.
