ABOUT US

Founded in 1965, Liedekerke Wolters Waelbroeck Kirkpatrick is one of the largest independent law firms in Belgium, recognised for its innovative thinking and legal expertise.

Our clients include international and domestic businesses, from start-ups and private companies to major listed companies and multinational corporations, as well as financial institutions, governmental bodies and intergovernmental institutions.

We are a full-service firm, providing contentious and non-contentious advice in every key business practice area. Across the firm, we also have dedicated sector teams comprising lawyers from a range of our main practice areas.

We always aim to get an in-depth understanding of our clients' businesses, which then allows us to anticipate issues and to provide our clients with legally robust advice, tailored to its context and based on a clear understanding of the business drivers behind the legal issues.

INTERNATIONAL

Cross-border work

A large proportion of our work has an international element. Many of our clients are based in other European countries, in Africa, the US, China, India, Russia or other CIS states, the Middle East or Latin America.

We also regularly assist Belgian companies investing in and setting up operations in these countries.

For example, our dedicated Africa desk serves Belgian and foreign clients in countries such as the Democratic Republic of Congo, Rwanda, Burundi, the Ivory Coast, Tanzania and South Africa.

An independent firm with global partners

We have chosen to remain an independent firm with strong ties to carefully selected partners. Our relationships with other law firms are privileged, but non-exclusive. This ensures that we can refer work to, and work with, whichever firm is best placed to meet the requirements of our clients in any particular case.

We are the only Belgian member of a number of international networks. One of these networks is Lex Mundi, the world's leading network of independent law firms with in-depth experience in 100+ countries. As a part of the Lex Mundi global network, we can provide our clients with preferred access to global legal resources with unmatched depth and breadth, significantly enhancing our ability to handle seamlessly our clients' most challenging cross-border transactions and disputes.
